

SIGNAL IDUNA PARK, BORUSSIA DORTMUND

LIMITED EDITION

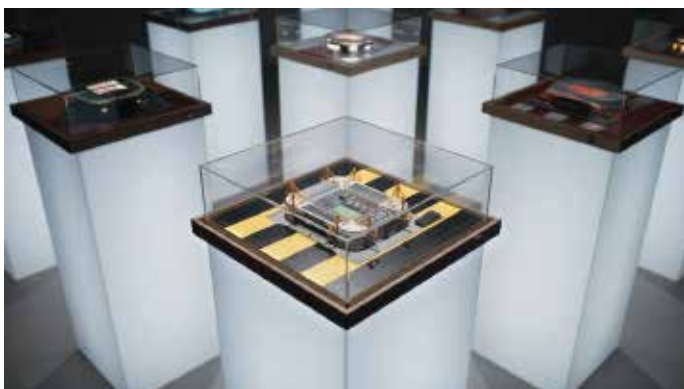

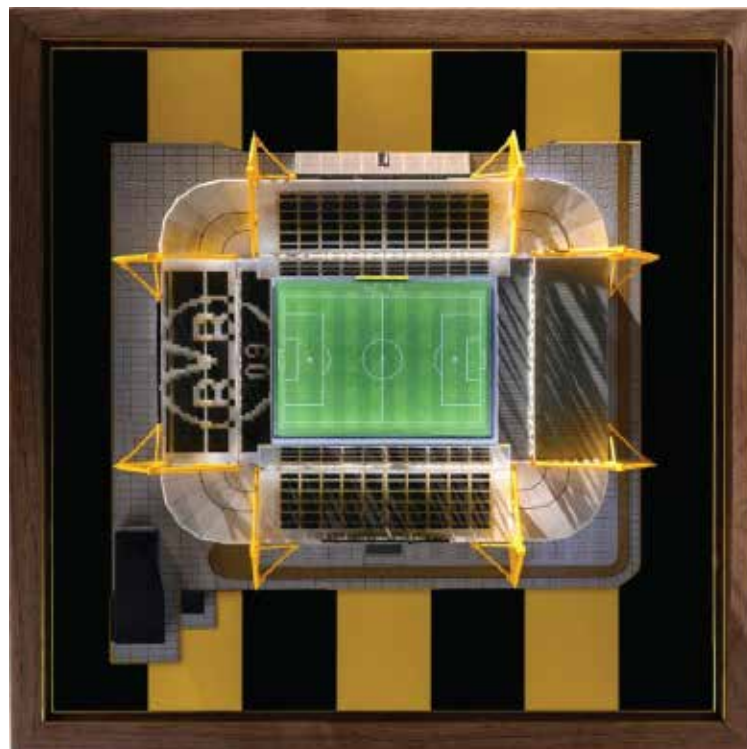

SIGNAL IDUNA PARK, BORUSSIA DORTMUND, GERMANY

Signal Iduna Park, the impressive home stadium of Borussia Dortmund, is an icon of German football culture. This detailed miniature stadium brings to life the character of Germany's largest stadium, including the famous 'Gelbe Wand'. Every detail, from the steep stands to the distinctive yellow-black colors, is meticulously recreated.

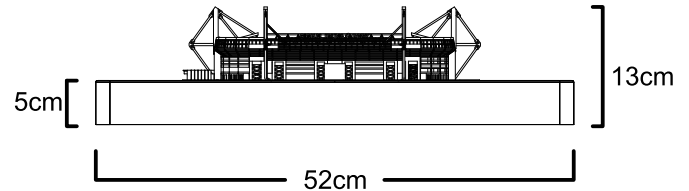

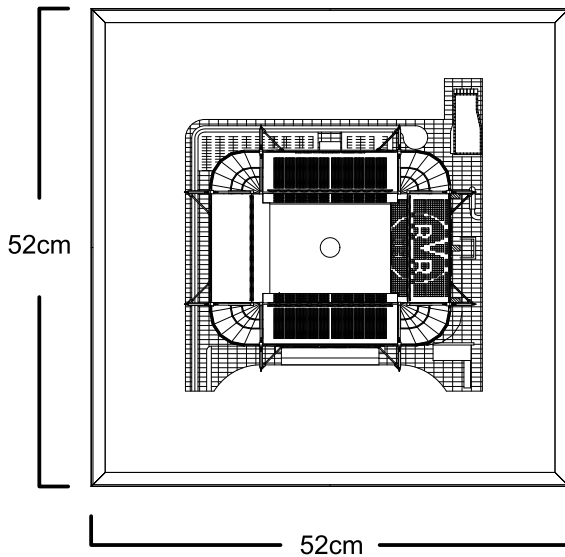

The legendary Signal Iduna Park, opened in 1974 and originally known as the Westfalenstadion, can host more than 80,000 spectators, making it the largest football stadium in Germany. Located in Dortmund, it is the home of Borussia Dortmund and has witnessed countless memorable moments. The stadium also houses the old Rote Erde Stadium from 1937, which still holds a place in this impressive complex. In 1974, the stadium played a historic role during the World Cup, when the Dutch national team, with Johan Cruyff at the helm, overwhelmed Brazil with their groundbreaking total football.

This moment, and especially Cruyff's goal, is forever linked to the Westfalenstadion. One of the most iconic features of Signal Iduna Park is the Gelbe Wand, the massive standing terrace on the southern side where passionate BVB supporters elevate the atmosphere to extraordinary heights. For important matches, the Gelbe Wand is accompanied by a giant banner, which completes the stadium experience and creates an unforgettable ambiance. In this miniature stadium, these details are meticulously recreated, from the distinctive yellow-black colors to the steep design of the stands.

SIZING

Dimensions: 55 cm x 55 cm x 13 cm
Weight Premium Edition: Approx. 8 kg

Material:

Base Plate – Acrylic
Frame – Solid Wood
Stadium – 3D printed parts, created with various technologies
Decals – PVC-free stickers
Lighting – LED strips
Power Supply – USB cable, wall adapter not included

Stadiums For Ants uses advanced LED techniques to realistically light their miniature stadiums. The field lighting is provided by precise (white) LED spotlights, creating a lifelike appearance on the field. Around the stadium, diffused ambient lighting creates a natural, atmospheric glow. The entire setup runs efficiently on 5 volts and is powered directly via a wall adapter, ensuring stable and safe energy supply.

Maintenance:

Frame/Plate – Clean with a dry cloth, no cleaning products

Stadium – Do not clean the stadium itself. Only use compressed air to remove dust
