

RAMS PARK, GALATASARAY

LIMITED EDITION

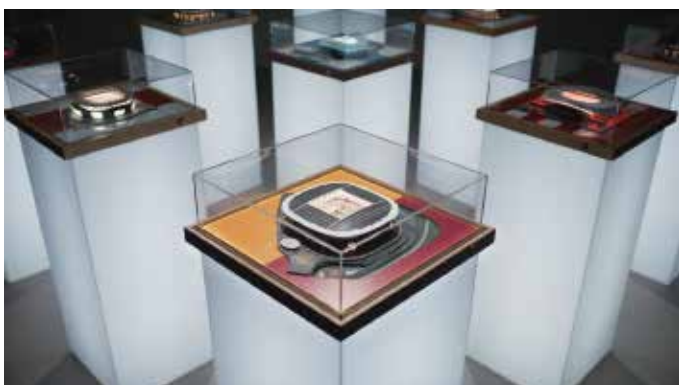

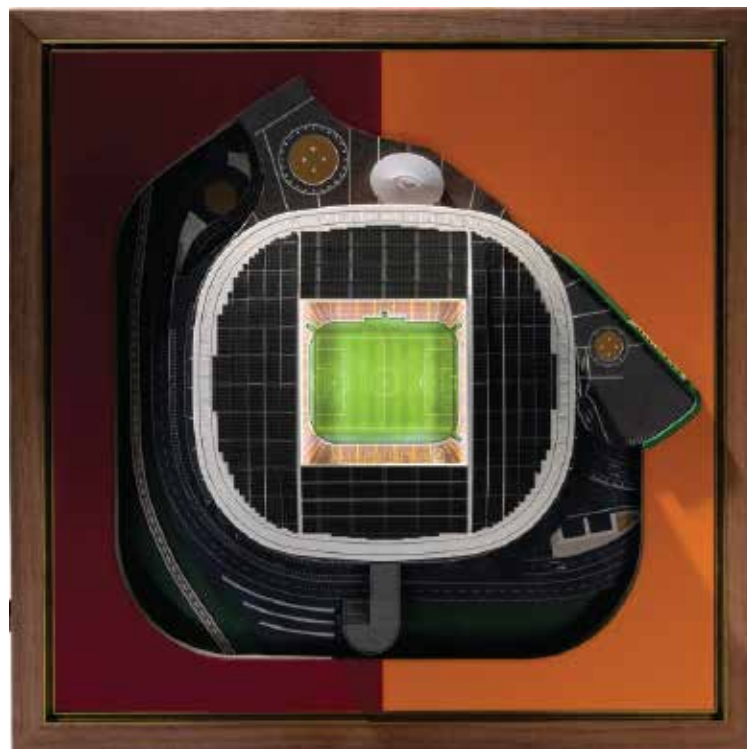

RAMS PARK, GALATASARAY, ISTANBUL

RAMS Park, the iconic home stadium of Galatasaray, is a modern sports monument in the heart of Istanbul. This detailed miniature captures the unique architecture, the impressive location between the hills and the Istanbul ring road, and **many significant details of the stadium perfectly.**

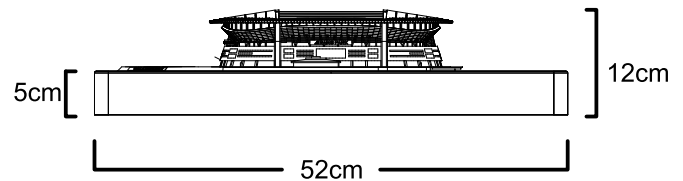

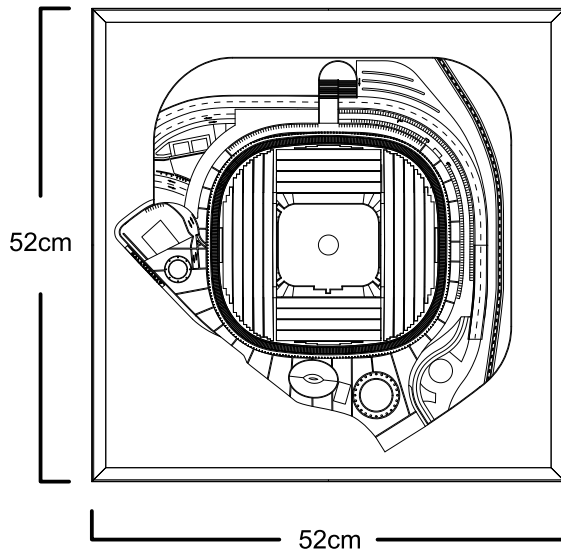

RAMS Park, the iconic home stadium of Galatasaray, is a modern sports monument in the heart of Istanbul. This detailed miniature brings to life the unique architecture, impressive location between the hills, and the ring road of Istanbul, capturing every essential feature of the stadium. Opened in 2011, RAMS Park is one of the most successful stadiums in the Turkish Süper Lig. With a seating capacity of more than 53,000, it is located within the Ali Sami Yen Sports Complex, named after the club's founder.

The multifunctional stadium is not only the venue for Galatasaray's home matches but has also hosted major artists like John Bon Jovi and Madonna for legendary concerts, contributing to the rich cultural history of the site. The stadium's unique location, built into a hill and adjacent to the Istanbul ring road, offers a breathtaking view and an exceptional atmosphere. The architecture of RAMS Park is modern, yet it respects the rich traditions of the club. The design of the miniature by Stadiums For Ants reflects this unique setting, with the surrounding hills and important details around the stadium meticulously recreated. This makes the miniature stadium a true eye-catcher for Galatasaray fans and Istanbul enthusiasts alike.

SIZING

Dimensions: 55 cm x 55 cm x 12 cm
Weight Premium Edition: Approx. 8 kg

Material:

Base Plate – Acrylic

Frame – Solid Wood

Stadium – 3D printed parts, created with various technologies

Decals – PVC-free stickers

Lighting – LED strips

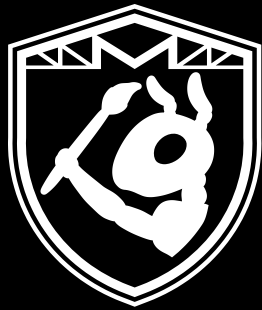

Power Supply – USB cable, wall adapter not included

Stadiums For Ants uses advanced LED techniques to realistically light their miniature stadiums. The field lighting is provided by precise (white) LED spotlights, creating a lifelike appearance on the field. Around the stadium, diffused ambient lighting creates a natural, atmospheric glow. The entire setup runs efficiently on 5 volts and is powered directly via a wall adapter, ensuring stable and safe energy supply.

Maintenance:

Frame/Plate – Clean with a dry cloth, no cleaning products

Stadium – Do not clean the stadium itself. Only use compressed air to remove dust
