

SAN SIRO, INTER MILAN

LIMITED EDITION

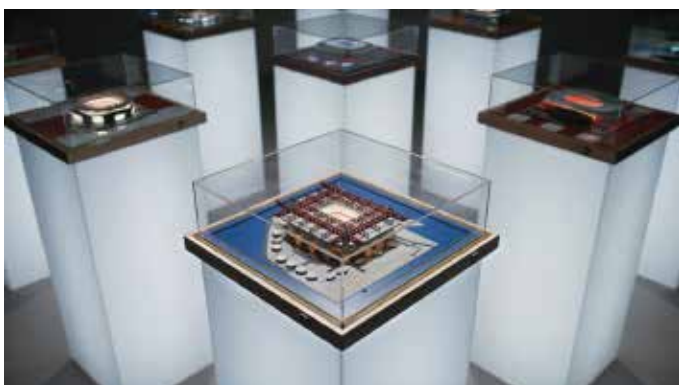

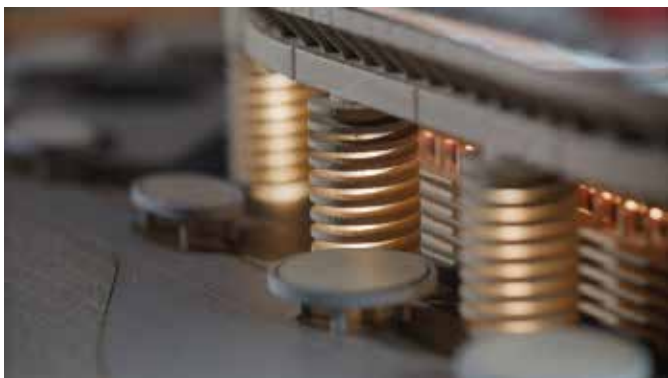

SAN SIRO, INTER MILAN

San Siro, the iconic stadium of FC Internazionale Milano, is a true monument in the Italian football world. This detailed miniature brings the impressive structure, distinctive roof, and famous concrete towers of San Siro to life. A must-have for every true Nerazzurri fan!

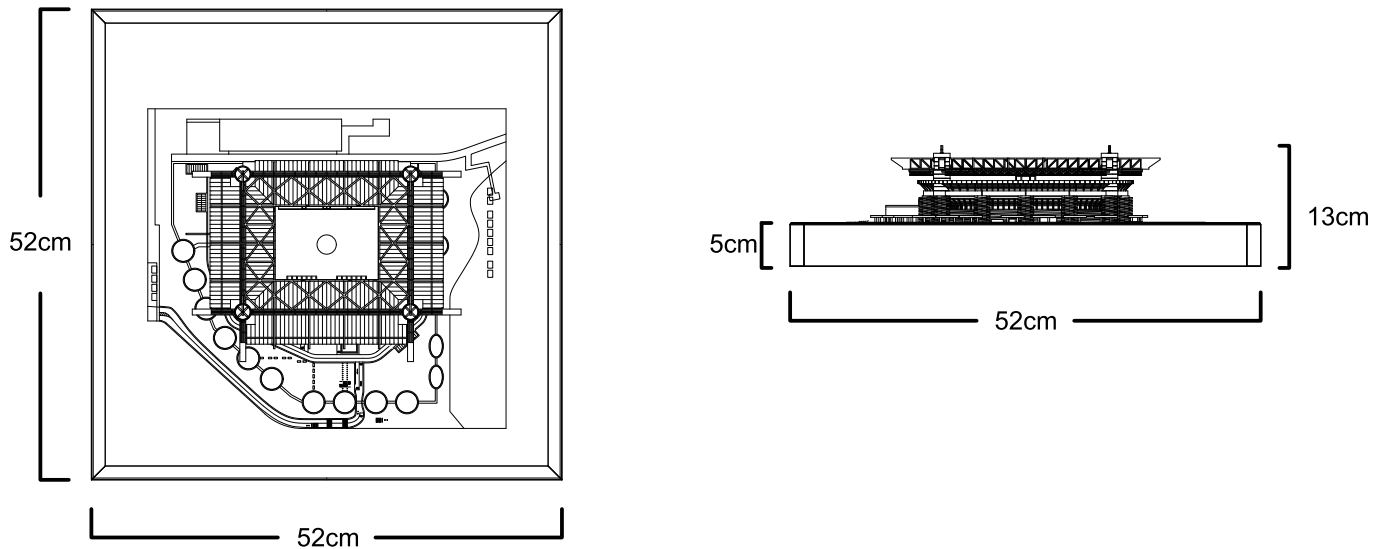

The historic San Siro, built in 1925, is one of the most legendary stadiums in the world, with a seating capacity of over 80,000 tifosi. Originally named after Giuseppe Meazza, the stadium underwent a major renovation in 1987 and received its current striking form. It served as one of the main venues for the 1990 FIFA World Cup and has since become an integral part of Italian sports culture. San Siro is unique in the world of club football, as it is the home of both FC Internazionale Milano and AC Milan.

The stadium's architecture is impressive, consisting of eleven robust concrete towers that precisely support the massive red roof. This construction has been meticulously replicated by Stadiums For Ants, perfectly capturing the elegance and strength of San Siro. Legendary moments are part of the rich history of this stadium. One of the most emotional moments was the farewell match of Marco van Basten, the famous Dutch striker and World Player of the Year, who won the hearts of Italian fans. This miniature stadium brings that history and all the drama of San Siro back to life.

SIZING

Dimensions: 55 cm x 55 cm x 13 cm
 Weight Premium Edition: Approx. 8 kg

Material:

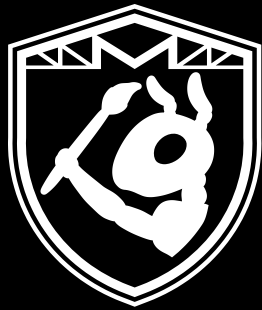

- Base Plate – Acrylic
- Frame – Solid Wood
- Stadium – 3D printed parts, created with various technologies
- Decals – PVC-free stickers
- Lighting – LED strips
- Power Supply – USB cable, wall adapter not included

Stadiums For Ants uses advanced LED techniques to realistically light their miniature stadiums. The field lighting is provided by precise (white) LED spotlights, creating a lifelike appearance on the field. Around the stadium, diffused ambient lighting creates a natural, atmospheric glow. The entire setup runs efficiently on 5 volts and is powered directly via a wall adapter, ensuring stable and safe energy supply.

Maintenance:

Frame/Plate – Clean with a dry cloth, no cleaning products

Stadium – Do not clean the stadium itself. Only use compressed air to remove dust
